Request to return coins MUST BE MADE WITHIN THREE DAYS OF RECEIPT OF COINS.
2. All bids are to be by LOT as numbered in the catalogue. When identical bids are received, preference is given to earliest bidder.
3. This is a UNRESTRICTED PUBLIC AUCTION. All bids are entered as received and highest bidder will be the buyer. Mail bidders may feel free to submit any bid they wish and each lot will be purchased for such bidders at the next highest bid over room bidders.
4. Bidders must establish credit or have on deposit 25% of TOTAL bids.
5. Lots will be available to room bidders after each session.

8. There will be no charge for executing bids but postage and insurance will be added, and a handling charge for heavy lots and books.
9. Where estimates are given they represent either the owner's idea of value or our professional opinion as to what they should bring. IN ANY EVENT THEY ARE ONLY ESTIMATES AND YOU CAN BID HIGHER OR LOWER. We recommend however, if you want the lot, bid close to or over estimate, this does not mean that our estimate is too high. It only means that the coin is not popular among collectors and few people compete for it. The estimates are what the **coin should be worth.**

ANCIENT SECTION

THE TATNALL STORY

We are proud to have Mr. Tatnall's collection of world coins at our Waldorf–Astoria auctions. We knew Mr. Tatnall from June 1939 when he began buying only the absolutely uncirculated coins from us. His collection is varied and diversified and all his modern coins are outstanding in condition. He liked to collect the smaller denominations if he had the crown. However, many small rare coins are in his collection even early coins when no dollar was known.

His daughter, told me that Mr. Tatnall's coin hobby was his big attraction in life after retirement although he started collecting as a boy. He was born – May 23rd, 1873 in Wilmington, Delaware. Attended Westtown School and Haverford College. With Provident Mutual Life Insurance Company for 40 years. At the time of his retirement, in 1941, he was Assistant Manager of the Policy Advance Department.
Member of the Society of Friends.
Member of:

Delaware Valley Ornithological Club
Zoological Society
Photographic Society of Philadelphia
Academy of Natural Sciences
Philadelphia Coin Club – one of the early members.
Numismatic and Antiquarian Society – Curator of Numismatics for many years.
One of original members of the Symphony Club Orchestra where he played the flute.
A. N. A. member for 23 years.
Treasurer of the Friends Free Library for about ten years.
Germantown Cricket Club.
Died January 30, 1960.

It is a great honor to distribute his beautiful coins all over the world and we thank his daughter for the privilege.

COPPER COINS OF RUSSIA AND DEPENDENCIES, PART I.

The following large run of copper coins (other metals so designated) was formed by this appreciative and discerning collector over the years and contains the basic ingredients of a fine collection: quantity, quality, rarity and diversity. The period covered by this collection is almost continuous, ranging from 1654 through the Empire's dissolution in 1917. Many choice and rare items are included. Owing to its immensity the collection is being halved. This, the first section, contains 17th and 18th century coinage up to, but only in part of CATHERINE II's reign. The appealing Siberia issues are in fair strength. Moldavia–Wallachia and Taurida are represented, as are the earlier extensive and varied coppers of PETER I., ANNA, and ELIZABETH.

Here too, are a goodly number of superb restrikes **(NOVODELS)** which, to some followers of this series, are looked on with jaundiced eye as they are not from original but subsequent, sometimes completely altered dies. The argument certainly is valid. No less a personage than the Grand Duke GEORGE MIKHAILOVICH recognized that Russian numismatics suffered from insertion of official or private restrikings into the stream of original issues and succeeded (1890) in stoppage of Novodels. And yet, no great collection was without them. The noted assemblages of Count Tolstoi, Gustave Klingert, the Garchine and Bespalov formations of modern times held novodels to a remarkable degree. The Grand Duke himself (after 1890) realistically sought restrikes for his cabinets because they existed and could not be ignored. Further, he advertised and also published a "Wants List" about 1902 which specified original and restrike desiderata by mint, moneyer, coin edge, etc.

For want of valuable space many coins, regretfully, must be in **LOTS** but grouped by relationship. Estimates are based on desirability, scarcity and current market values. And now, the coins:

ALEXEI MIKHAILOVICH "The Quiet One" 1645–1676

The introduction of a copper system at parity with older and existing silver in his reign caused much rioting and social unrest.

CATHERINE II. "The Great" 1762–1796

THE DISTINCTIVE SIBERIA COINAGE

In view of their popularity it is not surprising that almost the entire series from 1763 thru 1781 held NOVODELS in all denominations. The coins' charming design held high appeal; they were a welcome departure from the everpresent double eagle or St. George slaying a willing and cooperative dragon. The representation of two sables supporting crowned shield supplied an instant interest which somehow does not abate.

Struck at Kolyvan–Voskressensk, all values save the Polushka bear official Siberian arms of Sables and shield. Mmk **K M,** missing in rare datings, is situated under CATHERINE's monogram on Reverse. Several choice Restrikes are here. All merit individual listing but it is felt grouping by year and value will better serve bidders' needs.

1873-1960

The 136 pages of Mr. Samuel Tatnall's beautiful coin collection is a permanent tribute to him.

All his life he wished that some day his coins would be owned by as many coin collectors as possible.
